Why Be Fat?

The answer is that constant dieting is hard, continual exercise is tiresome, exhaustive—then, too, it might be harmful to lose the weight down. That was the old-fashioned idea. Today in *Marmale's Prescription Tablets* all these difficulties are overcome. Just a pleasant, harmless little tablet after each meal and at bedtime causes fat to vanish. This modern method is absolutely harmless, causes no dieting or exercise, and has the added advantage of cleansing the system.

Marmale's Prescription Tablets are sold by Dr. J. C. Marmale, 1000 Broadway, New York City. They are sold by Dr. J. C. Marmale, 1000 Broadway, New York City. They are sold by Dr. J. C. Marmale, 1000 Broadway, New York City.

HARVARD SQUAD STARTS SUNDAY.

Coming to Coast Determined to Smother Oregon.

Weather to Play Important Part in Big Game.

Crimsons to Step from Cold to Balm Climate.

Much like the crusaders of old, the Harvard football team starts for the West next Sunday night. Never before, according to reports, has a team from the East undertaken the trip in such a spirit of determination to win. The Crimson players consider it a duty, a mission, to turn in a victory over the Pacific Coast upholders.

Brown and Pennsylvania made the trip a joy jaunt, but Harvard, with its unbeaten team, has a reputation to sustain. Nothing is to be sacrificed in an effort to tip the Westerners.

COME TO SUNSHINE.

Weather has played a prominent part in the defeat of the eastern teams heretofore, according to the critics, and it is this that may upset the conditioning plans of "Pooch" Donovan, the veteran Harvard trainer. The Crimson players step from the cold, shivery East into the California portals of sunshine and flowers—a great climate to toll in, but a poor one for football players.

The Utah eleven, when they played U.C. here early last November, plainly showed the effects of the transition from Salt Lake to Los Angeles. Of course, Harvard will have a week to become acclimated, but that at best is a short time for the men to become accustomed to our balmy clime.

DEMPSEY IS OFFERED BIG SUM FOR SCRAP.

(BY A. P. NIGHT WIRE)

MILWAUKEE (Wis.) Dec. 13.—A French athletic syndicate, headed by Theodore Vienna, has offered Jack Dempsey, heavyweight pugilist, \$250,000 and 25 per cent. of movie picture revenue, estimated at \$18,000 more, for a match with Georges Carpentier in Paris.

This information was contained in a telegram today to Ben F. Stempel, Milwaukee, Vienna's representative in this country, and has won the offer to Jack Kearns, Dempsey's manager.

WALLACE MAY HELP HARVARD WITH ADVICE.

(BY A. P. NIGHT WIRE)

Don Wallace, former Harvard center, may help the Crimson team upon its arrival here for the New Year's game with Oregon. Wallace will be able to give the Cambridge coaches plenty of pointers on the Oregon system. He is a graduate of the U.C. preparatory department, and helped Dean Cromwell with the coaching duties after receiving his sheepskin from Harvard.

CADDOCK IS READY FOR ENGLISH CHAMP.

(BY A. P. NIGHT WIRE)

CHICAGO, Dec. 13.—Earl Caddock, champion heavyweight wrestler, finished his training today for his match here tomorrow night with Sam Clapham, British champion. It will be Caddock's first contest since he was discharged from the army.

The contest, according to Caddock, resulted from a promise he made Clapham in France when a match there was called off because of the champion's illness.

PEBLES IS PREXY OF ANNANDALE GOLF CLUB

Frank Pebbles of the Annandale Country Club has been elected president of the Southern California Golf Professionals' Association, and Tom Low has been re-elected secretary and treasurer. It has been decided to have an open tournament March 7, 8 and 9.

JERRY ABBOTT TO REFEREE THE GAME.

In all probability Jerry Abbott will referee next Saturday's football game between the Long Beach and Dinuba High Schools at Dinuba. The selection is in the hands of the C.P.F. officials, and Abbott is acceptable in Long Beach.

AUTO THIEVES ARE VERY BUSY.

The following autos were stolen from the streets of Los Angeles yesterday: Buick roadster, 1917, brown body, black wire wheels, No. 281835; Buick 1916 roadster, black body, No. 501650; Ford 1914 touring, black body, No. 567121.

SPORTING NOTES.

Moran is getting to be a name to conjure with in sports. There is Pat whose place of business is in Cincinnati, and Charley of Danville, Ky.

Patricia has the best baseball team in the country, and there are those who accord the same standing to Charley's collection at Centre College.

A number of football followers have expressed the opinion that the Long Beach High School football team would make it interesting for some of the college eleven here about. It is hard to say about that, but a number of years ago the Los Angeles High School repeatedly proved a match for the southern varsities. Most of the prep football talent was centered there at that time, high schools in this city not being as plentiful as now. The Blue and White at that time boasted such players as the Mitchell brothers, Mow and Han, the Cass boys and the late Ted Geisler.

Rumors in circulation for several weeks that Babe Bortos would be traded continue persistent. In fact, many felt that Bortos's days were numbered as a Tiger the moment the club reverted to Major League baseball. The fact has never been mentioned. This, however, may have nothing to do with the trade proposed with Sacramento involving Bortos and Handow Griggs.

Portland is looking to Detroit for much of its talent next season, and expects to receive a number of reports from that source. The Detroiters don't experience as much trouble getting players as holding them.

It would be unfortunate for the double Jack combination, Dempsey and Kearns, if Mike O'Dowd beat them to that Carpenter match and spilled the Boston specials.

Claims are made in some quarters that Carpenter never will fight in this country. This is not due to any distinction to leave him in his land, or to any prejudice against American dollars. Georges, they do say, is extremely susceptible to sea sickness. He becomes deathly ill crossing the English Channel, and some predict that if he ever attempts to cross the Atlantic he will cough up his vital organs.

Should James C. McGill decide to run his chapeau into the Coast League arena by buying a franchise he probably would not experience much difficulty in securing a desirable property. One or two owners are believed to have had enough of the game, and certain others have outlived their popularity in their own home towns. There are probably four clubs which could be bought with the right kind of bait.

BRUCE PLANS TO GET GAME HERE NEXT FALL.

Manager Henry Bruce of U.S.C. plans to get in touch with Manager Melvin of Oregon next week for the purpose of arranging an Oregon-U.S.C. football contest to be held in the south next fall.

Bruce also is working on a proposed two-year agreement with the Washington authorities which will bring that eleven here next season, and take the U.S.C. team north in 1935. Seattle folk, it is said, are greatly desirous of seeing one of Henderson's teams in action against Washington. They believe, so the story goes, that Henderson is a far better coach than "Jump" Hunt, the present Washington mentor, and consider it extremely unfortunate that Henderson was not secured when Dale resigned.

HARVARD IS UNABLE TO MEET WASHINGTON

(BY A. P. NIGHT WIRE)

TACOMA (Wash.) Dec. 13.—Mayor C. M. Riddell today received a telegram from Harvey Moore, manager of the Harvard football team, declaring it was impossible for Harvard to meet the University of Washington in the Tacoma stadium early in January.

GOLFER SMITH HERE TO SPEND WINTER.

Dave Smith, a professional golfer from the Cedar Rapids Country Club, arrived here yesterday accompanied by Mrs. Smith. They expect to spend the winter here, and Smith plans to take part in several of the "pro" tournaments scheduled for next spring.

SCHEDULE OF THE S.C.A. BALL LEAGUE.

The following games have been scheduled in the Southern California Amateur Baseball League for next Sunday: Blake Moffit & Towns vs. Lowell, Charles & Fahy-Atterbury, Norwalk vs. Redondo, Los Angeles Dye Works vs. Ventura, Hollywood vs. Gardena, and Gene Murphy vs. Oxnard.

MOREMAN WINNER.

(SPECIAL CORRESPONDENCE) CLAREMONT, Dec. 17.—Ray Moreman won the three and one fifth miles cross-country race at Pomona College yesterday. Handley was second, Curtis third, and fourth and fifth places were won by Moreman and Gene Murphy.

DUCK HUNTING GOOD.

You Buy It Concentrated and Mix
With Pint of Syrup.

Doubtless every reader recalls hav-
ing neglected a slight cold until in 24
hours it settled into a "Bad Cold"
and then about 72 hours of distress,
discomfort, if not weeks of bronchitis
or pneumonia or catarrh. Now con-
sider, if you've had such an experi-
ence, and take time by the forelock
by preparing to check and abort
colds, coughs, catarrh, difficult
breathing, watering eyes and painful
headaches.

It can be done, by taking Mento-
Laxene either in its raw state—ten
drops to the dose—or by making a
granulated sugar syrup and mixing
in a pint bottle or jar. A pint will
last a whole family for a long time
and keeps every member free from

Convention on Coast.Dockweiler to Give Facts and
Tender Fat Check.Say San Francisco Victory
will Aid Los Angeles.

Local Democrats yesterday
pledged themselves to a big fight to
bring the next National Democratic
Convention to the Pacific Coast.
Plans for the campaign were laid
yesterday when Isidore B. Dock-
weiler, Democratic national commit-
teeman for California, was host at
a luncheon at the Alexandria at-
tended by Lorin A. Handley, F. Ray
Groves, H. H. Cotton, E. L. Dehany,
Judge Bledsoe, John P. Carter, John
B. Elliott, Benjamin F. Groves, Alex-
ander Mitchell, C. T. Walton, Irwin
J. Mumma, Mattison B. Jones, R. P.
Del Valle, George E. Fulton, George
J. Davis, N. T. Powell, Charles Don-
don, Oxnard, Charles M. Brown,
Redlands, and Adolph Camarillo,
Oxnard.

Mr. Dockweiler outlined the plans
under way to secure the convention
for California, and stated that at
the meeting of the National Democratic
Committee in Washington, January
8, he will present California's claims.
He will also present San Francisco's
check of \$269,000, as a special in-
ducement.

The approximate date of the na-
tional convention is June 22.
All participating in this luncheon
meeting declared that Los Angeles
will reap a direct advantage from
the convention, as arrangements
would be made to have the delegates
travel by the southern route, either
coming or going home, so that they
will thus come to this city.

Edward J. Dehany spoke on the
Mexican situation, giving first-hand
knowledge and enlightening the
guests to a great extent as to the
facts about our sister republic.

DIVORCE TO ACTRESS.

Former Tennessee Society Woman,
Deported, Wins Decree.

Deported by her husband a
month after their marriage, Jan-
ette Hitchens, prominent in Mem-
phis (Tenn.) society, came to Los
Angeles to escape gossip and made
good in motion pictures. Yester-
day she was in Judge Park's court
seeking a divorce from George
Hitchens. The decree was grant-
ed.

She testified she was married at
Atlanta, Ga., March 19, 1912. A
month later Mr. Hitchens disap-
peared. Mrs. Hitchens asked the
police to search for him. Found
at Birmingham after a long search,
he refused to return to his wife.

Motor Bombs Suggests
Roughening Streets.

Joseph Brown, who says
he is a widower because of an
accident caused by speeders on
the city streets, sent to the
City Council a communication
yesterday, in which he
urged that every possible
measure be taken to stop
speeding. He urges, as one
measure, that the gutters at
street intersections be placed
on the surface, instead of be-
ing covered, so as to remove
the temptation continuous
drive highways present to
speeders.

"If a person lives long

some kind of motor vehicle."
The letter was sent to the
Council's Public Safety Com-
mittee.

REFERRING TO PART OF
A. R. MAJOR.

A. R. Major, convicted of grand
larceny by a jury in Judge How-
ard's court, was granted a new trial
yesterday on the ground of miscon-
duct on the part of his prosecutors,
who referred to the past history of
Major in the presence of the jury.
Leon Boulard, now serving a term
in the penitentiary for robbery, was
charged with holding up a jewelry
store on Sunset boulevard at the
time Major was in it. Major and
the proprietor were forced to hold
up their hands while Boulard took
money and jewels valued at \$225.
It was contended that Major and
Boulard left the store at the same
time. Paul Schenck is counsel for
Major.

RECONCILIATION ENDS
THEIR DIVORCE FIGHT.

Following a reconciliation the di-
vorce action brought by Mina Bar-

after Prof. Arthur R. Mace made an analysis of the parts of the body and found carbonic acid and chloroform. The coroner's jury was assigned a death certificate saying that Blaha came to his death from the use of the acid and chloroform administered to him.

Dr. Steele was arraigned before Justice Forbes. She went to the Los Angeles County Jail, appearing for Frank Dominguez, her attorney, arranged bond of \$1000 and was released. Her hearing was set for Friday.

"I am the last person in the world to wish George dead," said Dr. Steele. "I loved him very much. He came, and was at the station with a big bouquet of flowers for him. We were to go to the beach and have a party for the lotion and when it began to bother him, I asked him if he wanted to go to the beach. I saw a lot of hands of persons that way and nothing like this ever happened. When I saw how it affected him, I went for a doctor and he gave me a fume."

hills of 1834 Brooklyn avenue. He stepped in a hole at Seventh street and Boyle avenue and his left ankle was broken.

Next, Patrolman B. C. Croft of Madison avenue, who stumbled over a pile of rubbish in Echo Park, was treated for a fracture of the left ankle.

Speed Motorcycle Officer Sherman Carter of 124 West Avenue 44 took a high dive from his motorcycle while chasing a speeder of the San Fernando road and his left ankle was broken.

Fireman Frank R. Yeager of 2218 East Fourth street was the third of the injured policemen. He fractured both ankles when he slid down a fire pole at engine house No. 17.

—the Hidden Purpose Behind the Tailors' Strike

The influence of Foreign and Radical agitators has been uncovered again.

Thrusting directly at the heart of one of our own home industries:

Its success would have throttled the independence and livelihood of thousands of our workers and employers—would have created a condition intolerable to every real American.

**"Not Wages—Not hours—Not conditions—
but Soviet Control"**

was the finding of the Chamber of Commerce of San Francisco.

Read This:

"If the strike of the tailors had only to do with reasonable demands of wages and working conditions, the Chamber of Commerce would have no active concern; but it has been determined by painstaking investigation, that the journeyman tailors are not only unreasonable, but deliberately so, and that they are set forward as a very thin cloak to cover the revolutionary purpose of foreign and other radical agitators to overthrow the existing economic and political systems in this country, and to set up in their place a soviet control of industry and government.

The Answer—

The interest of the Public was at stake. Loss, inconvenience, the curtailing of production demanded prompt American action. Unanimously the **Merchant Tailors of Los Angeles** have declared for **Americanism—The Open Shop**—refusing positively to consider any proposition that is tainted with radicalism in any way.

The AMPICO
in the FRANKLIN

So why be satisfied with a player-piano?

The Gift Supreme!

Hear this "Miracle Piano" Today

Whether you wish to take any action now or not we most cordially invite you to come in and hear the Franklin Ampico. You will be repaid by a few moments or an hour of the most enjoyable musical entertainment you have ever experienced unless it

The Difference

Between the Ampico's reproductions of an artist's hand playing and the so-called reproductions attempted by any other instrument is this:

—The Ampico reproductions contain all of the tone color, the fine subtleties of expression and technique and the unlimited degrees of intensity which are the sole distinguishing features of an artist's work.

—The called reproductions of other instruments lack these qualities, giving merely the outline of notes, without the tone color or the finely graduated nuances, crescendos and diminuendos.

—You will quickly perceive the difference the minute you hear the Ampico—and you will echo the opinions expressed by the leading critics and musicians of the world—that the Ampico represents the most important musical development since the invention of the piano itself.

CONVENIENT MONTHLY TERMS

Our liberal monthly terms will make it easy for you to secure this splendid Christmas gift for your family.

If you have a piano or player now we will make you a generous offer for it in exchange for the Ampico in the Franklin. Please come in and learn our terms.

HOW HAVE THE MIGHTY FALLEN.

The man who called it the mighty dollar ought to see it now when it has been stretched to buy a shave and a haircut.

UNRECONCILED.

Since the Supreme Court sustained the prohibition law a movement is likely to be started in New Jersey to secede from the Union.

A FOOL'S PARADISE.

About \$300,000,000 worth of American ships will be exported to Havana if the shipping facilities can be obtained. It is only to see that Cuba will be the favorite resort of sporty Americans for several years to come.

THROUGH A STRAW.

Every one of twenty Massachusetts towns halting last Tuesday on the license question voted wet. This is a fine time to be passing on the problem of licensing saloons. The Supreme Court will be marking Massachusetts off from the map of the United States.

W.I.O. WANTS SIBERIA?

If Admiral Kolchak is going to cede part of Siberia to Japan to save it from the hands of the Reds the Japs had best see what sort of an abstract of this they are getting. But who wants Siberia, anyhow? It is dead sure that the American doughboys don't.

A FINE STORY.

It has been found that with a proper system of feeding goldfish can be made to live twenty years or more. It is such pleasant and timely discoveries as this that take the sting out of the coal famine and the lofty charge for existence. People who have had their beloved goldfish croak on their hands at the tender age of a dozen years may now cheer up.

SPORTING NOTE.

Revival of the deal whereby this country would acquire the island of Jamaica is suggested. The rising demand for Jamaica ginger might make it desirable to get the stuff without a tariff duty. However, California can furnish the backbone of unlimited quantities of this product so that the home warriors need not suffer for the necessities of life.

FLAT HEATING.

A New York landlord was fined \$500 for failure to keep an apartment-house sufficiently warmed for the tenants. There are several million flat-dwellers who would like to chip in for a suitable testimonial to the judge who inflicted this drastic penalty. It has encouraged other tenants to make it hot for landlords who fail to make it hot enough for them.

COAL CHARGES.

Maybe the price of coal was not so officially advanced, but there are a lot of people in the Middle West who have been glad to pay two and three dollars premium to get coal during the present pinch and they have been getting that. When coal is priced at \$15 a ton and there's a busy guest at the gate waiting a twenty-dollar bill he is the first one to catch the eye of the dealer.

RED TAPE AND DOCTORS.

The decision of a California court that pupils in the schools cannot be forced to submit to medical examinations against the wishes of their parents is important as indicating a desire to free the educational institutions from any suspected control by any group of physicians. There was a suspicion that if the regulars had their way the schools would be doctored to a fare-you-well. A great many errors have been committed under the banner of "safety first."

THE BULGARIAN TREATY.

There's a good deal of speculation in the East as to what the Senate will do with the Bulgarian peace treaty. The United States never declared war on Bulgaria, but its representatives at Versailles signed the treaty of peace with that country. The document is coming in for a good deal of adverse criticism. Just as the foes of the German treaty and the League of Nations covenant say it contains the germs of future wars so the opponents of the Bulgarian agreement insist that it means there will be many more bloody wars in the Balkans. The drafter of this document was a matter of great difficulty. Greece, Serbia and Rumania all wanted to step on Bulgaria as hard as possible. And who can blame them? They have suffered much from the one-time bully of the Balkans. These three countries did not get all they wanted and are discontented; Bulgaria, on the other hand, like Germany, thinks it is outrageously treated, but has accepted its punishment with a much better grace than is shown by Berlin. Whether it is desirable for the United States to mix up with the affairs of Balkans is a matter for the Senate to determine when the treaty comes before it. This much is certain, however: If the covenant of the League of Nations is not adopted with reservations by the Senate, together with the German treaty, there can be no use in taking any action in regard to the Bulgarian pact except to reject it. This country cannot accept the lesser treaty and turn down the real covenant.

BILLS AND ASSES.

To put the case in the vernacular," writes Horatio Bottomley, radical member of the British Parliament, discussing the status of the peace treaty in his weekly publication, John Bull, "we have been sold a pup. And an ugly one, too. Henceforth, whoever talks indignantly about 'scraps of paper' it must not be Cousin Jonathan, for it won't wash."

Horatio Bottomley is commonly classed with Artemus Ward's kangaroo, as a "factive and amocul cuss." But when he uses his publication and his Parliamentary position to question the good faith of the United States (which he now charges with waiting to rush to the aid of the winter in the war) and of the American Senate in declining to ratify the treaty without reservations he is deserving of the discipline inflicted by Ward on his trained animals and a few extra kicks.

This inconceivable wretch, Bottomley, alleges in his dastardly sheet that the "Yankees" are without honor and without shame; that "American idealism is just another name for Yankee bluff;" that while the other Allies were observing in the struggle with the Central Empires "Uncle Sam was busy getting a strangle hold on the world's markets which he does not mean to loosen without a frantic contest;" that, "having got out of the war cheaply, America proposed to get out of the peace cheaper;" that President Wilson was puffed up like a toad by "such a brilliant progress" through the leading cities of Europe as was never witnessed since the days of the Caesars. In short, that the part played by the United States in the great war was that of a humo-stealer. Bottomley's abuse is limited only by his vocabulary.

This fellow is a Red reproach to the British Parliament. His ingratitude is as monstrous as his effrontery. He has achieved the distinction of sitting in the eye of a friend and kicking a slop bucket over a benefactor. He has willfully forgotten those dark days of April, 1918, when German legions were thundering across the plains of Flanders, when the gallant British troops were fighting to use Gen. Haig's own words, "with their backs to the wall," when the War Council was writing to President Wilson "For God's sake, hurry." He has forgotten that America expended more money on the war in one year than did Great Britain in any three years. He has forgotten that the American people bonded themselves to furnish the money to make good pledges of the British government of loans to her Allies. He has forgotten that America had more troops in France when the armistice was signed than Great Britain and all her dominions. And he sees nothing in America's part in the war, from the beginning to the refusal of the Senate to ratify the peace treaty, but "Yankee bluff," dictated solely by self-interest.

We realize that utterances from such a source must not be taken too seriously; that it would be cruel to deprive the ass of its traditional right to bray; that we must not expect one with faulty understanding to envision the limitless horizons of the new freedom. Bottomley is not a fair name of the British member of Parliament, of the British publisher or of the British press. He is a defective specimen that makes a parade of his deformity. Were it not for the position he temporarily occupies his denunciations would attract no interest.

America's part in the war is not one that requires apology. The valor of her troops has been attested to by Hindenburg and Ludendorff, as well as by Marshal Foch. The defeated German generals admit in their memoirs that the American assaults were so vigorous and so well sustained that they were irresistible. Horatio Bottomley, in his sassy thread, wholly misses the significance of the fact that the request from the German government for an armistice was sent, not to the Supreme War Council, but direct to President Wilson. The Times does not assume that America alone won the war. The war was won by no single country, no one people. It was an Allied victory. Germany was finally crushed by the solid pressure which the American troops brought to bear. But it is an insult, not only to America, but to the intelligence of his own readers, for Bottomley to insinuate that the part of America was that of one rushing to the aid of the winner.

American troops began arriving in France in force during the darkest days of the world war. Gen. Haig had been driven from Belgium, from France, from Mont Kemmel. His war-weary but dauntless troops were clinging with proverbial British pluck and doggedness to the narrow strip that separated the advancing Huns from the channel ports. The French had lost Chemin des Dames, Soissons and Chateau Thierry. The first encounter of the Americans with the German troops in force was on the north bank of the Marne, but forty-five miles from Paris. And from the day of that first shock the German fortunes began to wane. There was the turning point of the war. He who is too blinded by prejudice to see this is certainly too blind to be able to observe accurately what has been taking place since. But for American intervention the British Empire would have been destroyed and the British pound sterling would be selling on the world exchange at the prevalent quotations for the German mark.

Horatio Bottomley's insolent strictures on the part played by the American Senate in the peace negotiations are nothing more than a display of his own ignorance of world affairs. By no time did America's war on the south bank of the Marne, but forty-five miles from Paris. And from the day of that first shock the German fortunes began to wane. But for American intervention the British Empire would have been destroyed and the British pound sterling would be selling on the world exchange at the prevalent quotations for the German mark.

Horatio Bottomley's insolent strictures on the part played by the American Senate in the peace negotiations are nothing more than a display of his own ignorance of world affairs. By no time did America's war on the south bank of the Marne, but forty-five miles from Paris. And from the day of that first shock the German fortunes began to wane. There was the turning point of the war. He who is too blinded by prejudice to see this is certainly too blind to be able to observe accurately what has been taking place since. But for American intervention the British Empire would have been destroyed and the British pound sterling would be selling on the world exchange at the prevalent quotations for the German mark.

A Recipe for Cabinet Pudding.

the Senate while the treaty was under consideration. But the Times has not yet abandoned the belief that the treaty will be taken up again at an early date and ratified, with such reservations as members of the Allied council have intimated would not be objectionable. The Times, too, is fully convinced that if the true sentiment of the British public were expressed by the utterances of this unscrupulous ass, Bottomley, it would be wise for us to avoid what might even have the semblance of appearance of an Anglo-American alliance.

But this mangy British donkey yehaws only for himself and his radical group. It is a pity that the Huns did not get the un-couth creature and make glycerine of him; for then he might have served a useful purpose and at least passed as a smooth article.

NOT A CAMPAIGN ISSUE.
 Members of the Republican National Committee are to be congratulated on their refusal to permit the peace treaty to be discussed at their session in the national capital. The treaty is not a partisan issue; it is not a political issue, and it has no place in a party platform or a political campaign. But the Democratic party is a party that the Huns did not get the un-couth creature and make glycerine of him; for then he might have served a useful purpose and at least passed as a smooth article.

Candidates without an issue will probably try to make political capital out of the rejection of the treaty. They must have gas for their booms at any price—poison gas if some other. The Democratic party is a party that the Huns did not get the un-couth creature and make glycerine of him; for then he might have served a useful purpose and at least passed as a smooth article.

One of the "bitter-enders" on the Republican side has already announced his candidacy for the Republican nomination; others are said to be nursing Presidential ambitions that are still "in the hands of our friends." Senator Hitchcock is reported to be seeking the Democratic nomination on his record in fighting for ratification without reservations. The Times is firmly of the conviction that any candidate who attempts to lag the peace treaty into the campaign will be badly beaten. We are of the opinion that the treaty will be ratified with mild reservations months before the conventions are held; but ratified or unratified, the treaty must not be dragged through the mire of partisan politics.

The candidate who attempts to win the suffrage of certain interests because he made their fight against the treaty will be likely to find that for every vote he wins on such an issue the votes of ten loyal Americans who put patriotism above party expediency will be registered against him. Gen. Wood was not regarded as a serious contender for the Republican nomination until the members of the Nonpartisan League and of certain radical and pro-German societies in the Middle West began to oppose him for his action in quelling riots during the steel strike. Their opposition rallied to his side sufficient loyal American support to give him the endorsement of the first State convention. That in itself is an illustration of the state of the public mind.

A departure in political methods is proposed in the formation of a committee on policy to formulate a preliminary statement on which the Republican National Convention may base its formal declaration in adopting a platform for 1920. It means the preparation of a concrete statement growing out of the suggestions and wisdom of a committee of thirty-eight members representing the varied interests of the country. It would certainly offer something better than the way of an ill-digested platform prepared over night.

GIVES WARNING TO PROFITEERS.

Attwood Hints at Extension of Army Retail Stores.

Assistant Attorney-General Asks for Co-operation.

Says Purchaser Can Help in Stabilizing Prices.

"Let the retailer be wise, for doing the decent thing in regard to prices is the wise thing. The army store has demonstrated that the federal government can do a retail business and that nobody can compete with the government."

This was the advice given by John H. Atwood, assistant U. S. Attorney-General, in his address yesterday before the City Club.

Although it is generally understood that Mr. Atwood is in California to carry out the wishes of Atty.-Gen. Palmer in advocating the appointment of fair-price committees, such as has been done in New Mexico, Arizona and Utah, he made no direct reference to this in his address, nor did he refer to his recent controversy with Gov. Stephens on this subject.

Mr. Atwood strongly denounced profiteers, declaring that they were violating the federal law and doing a grave injustice to the communities that supported them. He said that there must be co-operation between the people, the state and national officials in order to bring about a stabilization of prices.

Referring to various plans proposed for reducing the high cost of living, the speaker said he believed there would be a sudden and marked reduction in these prices if an embargo is placed on exports to foreign countries of necessities of life, but that the American people would recoil with horror from the thought of allowing the people of other nations to waste away and die for lack of the goods that we have.

ENDS LITCH SUIT TO RECOVER AUTOMOBILE.

The suit of Thomas Kimball Litch against the Burlington garage for the recovery of an automobile he claims went off calendar in Judge Work's court yesterday. Mr. Litch did not put up \$300 to cover the costs of the suit.

The automobile is the one Mr. Litch said the woman he married in New Mexico when he already had a wife stole from him. She admitted selling it. She is now Mrs. DuBois.

A CASE WHERE DOCTORS AGREE

Medical Science Practically Unanimous as to Treatment of Colds and Influenza.

Doctors are practically unanimous in agreeing that the drugs which are used in such cases are Aspirin, Phenacetin, Quinine, Salol, Caffeine Citrate and Camphor Monohydrate. "Any physician will tell the reader that this combination may safely be trusted in the treatment of a cold or a case of Grippe. It is also a combination which does quick and effective work."

The objects sought by the treatment are the keeping of the system open in order that the systemic poisons generated by the cold may be thrown off, the reducing of the feverish condition accompanying the cold, the alleviation of the clogged up condition of the head and the soreness of the muscles usually present and the general toning up of the system.

Grip Fix, a preparation now on sale at all drug stores, is a combination of just the ingredients advised by physicians for effective results.

Grip Fix has a record of relieving a cold in a night and even a case of Grippe in 48 hours. With a box in the house full safeguard in all hands if colds break out. Be sure to get the genuine Grip Fix with the formula printed on the box. It sells at 25 cents—a small price for a treatment so effective for colds. On sale by all druggists.—Advertisement.

ANTLERED ONES ADD TO NUMBER

Thousand New Members are
Initiated by Elks.

Parade Precedes Auditorium
Gathering and "Jinks."

Past Grand Exalted Ruler
Talks on Patriotism.

Shrine Auditorium was crowded
to its utmost capacity, last night,
with new and old members of Los
Angeles Elks' Lodge, No. 93, and
visiting Elks from all points of
Southern California for the initiation
of about 1000 candidates.

George Goldsmith, Exalted Ruler,
assisted by the officers of the lodge
and the Exalted Rulers from other
lodges of the Southern California
jurisdiction, officiated at the initiation.

The candidates began gathering at
the Elks' home, early yesterday
afternoon, and until 8:30 p.m. there
was an almost constant stream of
automobiles driving up to discharge
their load of human freight. After
the candidates had assembled, a parade,
headed by Chief of Police, Home
and a platoon of policemen, moved
north on Olive street in First,
west to Broadway, and then south to
Tenth, where cars were taken for
the auditorium.

The procession included the Elks' Band,
the local Elks' drill team, members
of New York Elks' Lodge No. 1,
the Southern lodge; 1900 candidates
of the local lodge, Pasadena Elks' Band,
drill team and visiting members,
Glendale Elks' Band, drill team and
members; San Pedro Elks' Band, drill
team and members, and other lodges of
this section of California, with their
bands and drill teams.

The following Exalted Rulers assisted
in the initiation ceremony: O. E. Ohmsted,
El Centro; Ebert C. Davis, San Diego;
Charles Bateman, San Pedro; W. F. Diers,
Santa Ana; Thomas J. McFadden, Anaheim;

James S. Holton, Long Beach; A. C. Haller,
Whittier; Frank Buttrick, Bakersfield;
Edward S. Norton, Pomona; Lee O. A. Stromme,
San Bernardino; E. F. Schmitt, Riverside;
B. E. Nahmens, Redlands; Cameron De Hart,
Thom. Glendale; Harry Chessman, Pasadena;
Herbert S. Farrell, Alhambra; and Edward
Murphy, Redondo. Jew E. C. Burke, District
Deputy Grand Exalted Ruler, also assisted
in the ceremony.

One of the principal features of
the initiation was the address on patriotism
delivered by Past Grand Exalted Ruler
Raymond F. Benjamin. Judge McCormick and
John G. Mott, Past Exalted Ruler of 93,
also spoke.

Following the initiation there was a
"high jinks" for the benefit of the Elks' Christmas fund.
Amusing in the programme were Douglas Fairbanks, Harry Carey, Law
Cody, James J. Corbett, Francis Dean,
Kathleen O'Connor, Will Rogers, Lydia
Yamouille, J. Barney Sherry, Matilda
Brothers, Andrew E. ("Jazz") Klein and
Johnny Schonberg.

MILK COMMITTEE FINISHES ITS REPORT.

FINDS THERE ARE TOO MANY
DISTRIBUTORS; RECOMMENDS
LEGISLATIVE ACTION.

The Mayor's Milk Investigating
Committee met last evening at the
Mayor's office and gave its report on
its recommendations. Based on its
findings, which will be laid before
Mayor Snyder today. These call for
a united effort to have milk delivered
at a public utility and placed under
the supervision of the State Railroad
Commission.

The report states that it is the
consensus of opinion of the committee
that the number of distributors
could be decreased to a few or even one,
with a corresponding decrease in the cost
of handling of milk, and that figures and
statements submitted by the committee
show there is a decided disproportion
in the cost of production and distribution
of milk.

It is recommended that the City
Attorney be instructed to draw an
amendment to the Public Utilities Act,
which shall be presented to the next
special or regular session of the State
Legislature, making milk a public utility.

**WOMAN HIT TWICE IN
AUTO CRASH MAY DIE.**

KNOCKED DOWN BY MACHINE,
THEN CAUGHT BETWEEN IT
AND ANOTHER CAR.

Struck down by an automobile
near Eighth street and Grand avenue
late yesterday afternoon and then
caught between the machine that
struck her and another automobile
when the two collided, Mrs. Louise
Byrnes, 35 years of age, of the
Stillwell Hotel, was probably fatally
injured. At the Receiving Hospital
where the unconscious woman was
taken before being sent to St. Vincent's
Hospital, she was treated for a fracture
of the skull and internal injuries.

According to Police Detectives
Vernand and Catto, who investigated
the double crash, the first machine
to strike Mrs. Byrnes was driven by
Archibald Meyer of 218 East Maple
avenue, Glendale. After striking the
woman Meyer drove his automobile
into a machine driven by Charles E.
Mace of 419 North Berendo street.
Mrs. Byrnes was caught between the
two automobiles.

From witnesses who saw the accident,
the police learned that Mr. Meyer
swerved his machine to avoid striking
a boy riding a bicycle and in doing so
ran down Mrs. Byrnes, who was attempting
to cross the street on her way to the
Stillwell Hotel. Meyer was held at Central
Police Station for a short time and
then released.

WILL BE FOUGHT ALL OVER AGAIN
Grant New Trial in Exciting Barker-Munro Battle.
Wealthy Zinc Man Hits Back in Suit for Property.
Asserts Girl Enticed Him to Leave Wife for Her.
By the granting of a new trial yesterday the sensational suit of Mrs. Grace Munro against Clara Barker, in which Miss Barker was charged with stealing the love of Charles W. S. Munro, wealthy zinc manufacturer of Trenton, N. J., will be fought all over again. Judge Munro held that the judgment in favor of Miss Barker was against the weight of the evidence. The evidence showed, particularly through her many love letters, that Miss Barker sought to retain Mr. Munro when he wanted to return to his wife.
Representing her as a vampire who persuaded him to live with her in various cities, she contending him away from his wife, Mr. Munro, in an answer filed yesterday in the suit of Mrs. Barker to recover property worth \$10,000 that she charges he conspired to obtain from her, declares she transferred the property voluntarily.
Knowing him to be married, Mr. Munro states, Miss Barker induced him to go with her from Trenton to Plainfield, N. J., Hartford, Ct., Los Angeles and Glendale. Their relationship continued until September, 1918, when Mr. Munro left for the East. Miss Barker followed him, he says, and tried to persuade him to renew his relations with her. He says she threatened to expose him unless he paid her money. He did give her \$10,000, which she demanded under threat of exposure, he declares. He bought the Glendale "love nest" and put it in her name.
All the allegations in Miss Barker's suit are denied by Mr. Munro, particularly that he conspired to obtain possession of the property. He is represented by Attorneys H. M. Clarke and R. W. Richardson.

SLAYER OF INDIAN AGENT IS SET FREE.
CHIEF AMBROSIO SAVES FOUR YEARS BY GOOD CONDUCT AT McNEIL'S ISLAND.
Having served six years of a ten-year sentence for the killing of William H. Stanley, government agent at the Coahuilla Indian Reservation, in 1912, Ambrosio Apapas, chief of the Coahuilla tribe, yesterday was freed from the Federal penitentiary at McNeil's Island. Five other Indians, sentenced to the same term, are still in the prison.
The trial of the Indians here in 1912 brought about half the population of the reservation to Los Angeles, some as witnesses and others as spectators. All the testimony had to be taken through interpreters.
Stanley's murder grew out of a quarrel over the agent's efforts to introduce better conditions at the reservation. The conviction of the Indians put an end to all trouble.
LOS ANGELES POST TO NAME OFFICERS.
Los Angeles Post, American Legion, will hold its last meeting of the year tonight at the Elstated Men's Club, Ninth street and Grand avenue, to nominate officers for the ensuing year. The election will take place at the first meeting of the post in January.
The by-laws of the post also will be changed so that additional dues will be collected to make for the increased State and national per capita tax. A committee will present a budget for next year. Preceding the meeting a musical programme will be given by Charles Leonard, Al Poberthy and Al Selden.
A. W. FORRESTER DIES.
Funeral of Prominent Realty Man to be Held Today.
The funeral of Arthur W. Forrester, of 2245 West Eighth street, member of the long-established realty firm of E. A. Forrester & Son, and part owner of the Forrester Building, 640 South Broadway, who died Tuesday, will be held at 1:30 p.m. today from the establishment of Broese Bros. Mr. Forrester, who was a native of Scranton, Pa., was 50 years of age, thirty-five of which were passed in Los Angeles. He leaves a widow, Mrs. Ella Forrester; a daughter, Mrs. George Pelton, and a brother, Fred W. Forrester.

OVERTURNS AUTO.
Two Hurt in Alleged Attempt to Evade Traffic Officer.
Suffering from serious injuries and under technical arrest, charged with reckless driving and intoxication, T. R. McCawley, of 6710 Hollywood boulevard, and Thomas Wilkinson, Rindie Arms Apartments, are in the hospital in Venice, after an attempt to evade a motorcycle policeman who was pursuing them to make an arrest for speeding.
The men started from Venice for Los Angeles and were approaching "death curve," on Washington boulevard at a speed of fifty miles an hour, according to the officers. At the curve their car struck the curb and turned over.
At the Venice Emergency Hospital it was found McCawley had sustained a broken leg and hand and Wilkinson had either two or three ribs broken.
LICENSED TO WED.
Lester King Bishop, 23, and Maybelle Lee MacCreedy, 23, both of Los Angeles, secured a license to wed yesterday in Sacramento.

op. appearing before Judge Spring in Superior Court today. Judge Spring suddenly stopped the hearing in the case of the defendant, and instructed the jury to tell the large number of cases that they must remove the defendant from the case.

Through the attorney for plaintiff the Oriental Hotel, Judge Spring stated that while in America, Hindu should conduct themselves according to American customs, and that while in his courtroom, he would be obliged to remove the defendant from the case. Several of the signs left the courtroom, and the plaintiff in the case was the one to remain and obey the order. The turban was made of a long strip of cloth, and was placed by the side of the small sign.

FUND DRIVE DELAYED BY HOLIDAY.

THE FUND DRIVE AS SOON AS POSSIBLE WILL BE HELD.

Statement was made yesterday by the committee on the fund drive, which is being held by the American Dye Works, that the drive will be held as soon as possible, and that the committee will be in touch with the directors of the drive.

ness pressure on the campaign workers is relieved, the plan being to complete the fund drive as quickly as possible and then turn, early in the new year, to the entertainment programme proposed by the association.

"In view of the tremendous business rush now on and the fact that the majority of our committee workers are identified with industries where the pressure is greatest," explained Mr. McKee, "it was deemed advisable by the directors of the fund drive to suspend the active canvass at this time and resume after the rush of the Christmas holidays.

"Our organization, as the public knows, is purely a volunteer one, and its members are all men whose presence just now is highly important to their business. Up to this time splendid work has been done in conducting the canvass for the fund drive, and we are entirely satisfied with the progress made. Moreover, we are confident that the total fund will be quickly raised when our organization, which will be held intact, begins to function again."

It is also stated at the festive headquarters in the Lankershim Building that approximately half the guarantee was in sight. On the basis of the pledges made to date, it is estimated that the fund will be all in hand shortly after Christmas. Secretary E. J. Farmer has requested that subcommittees who have not turned in their reports of fund pledges, do so as soon as possible, so that a definite statement of the progress of the drive may be available for the directors.

Facts About Combination Sugar Sales

The sugar profiteers and extortioners, who have been forcing combination sales with sugar, are now looking around for a valid excuse to offer the United States District Attorney has ruled that sugar combination sales will no longer be permitted.

Combination sugar sales were always wrong; were always and are still against the regulations of the United States Food Administration. I have made a personal fight against combination sugar sales for the past two months and, naturally, feel somewhat gratified at the outcome.

Making combination sales with sugar, under the distressing circumstances through which we have been passing, was nothing less than a mild form of commercial extortion. This corporation has not, and never will stoop to such low practice. We are trying to run our business on the basis of 100 per cent. Americanism, and 100 per cent. Americanism in commercial life does not permit of such pettifoggery. It is deplorable when men who boast of their bigness resort to such smallness.

We will still continue selling sugar at a reasonable amount to each customer according to the amount we receive, charging a fair price as allowed by the Department of Justice, and we trust that the consuming public will bear in mind that this corporation did not practice petty extortion during the sugar shortage.

Our refusal to join in this practice lost us several thousand dollars' worth of business, but we feel that this loss is compensated by the justice of our position.

GET PLAY SUCCESS.

MAJESTIC COMPANY TO PRESENT "COUNTRY COUSIN."

By Edwin Schallert.
Besides "The Willow Tree," which is to have its first local performance Sunday night, another eastern success secured for early presentation at the Majestic Theater is "The Country Cousin," which served as a starring vehicle for Alexander Carlyle. Deas Worley obtained a number of other plays for production at the local stock theater, but so far has not notified the management here what they are. Worley is expected to return to this city next Tuesday.

The setting for "The Willow Tree" is so elaborate that the carpenters and scenic artists commenced work on it nearly a week ago. It will require ten days in all to complete the stage detail. There is no change of scene in the Benjamine Rhodes play. The entire action transpires in a Japanese garden.

The film version of "The Willow Tree" was recently produced by the Metro company, with Viola Dana in the leading role.

"Head Over Heels," the musical comedy in which Mimi is to appear, beginning the 25th inst., at the Mason, was written by Edgar Allan Wolf, who is well known to theatergoers from his many vaudeville sketches. The music is by Jerome Kern, who won popularity with "Oh, Boy!", "Very Good Eddie" and others.

Coney Island Tour.
In her big variety act, which comes to the Orpheum next week, Gertrude Hoffman includes as one of the features, "A Trip to Coney Island." She will elucidate the various moods dominating day and night in dances, employing also special musical devices.

Hard Tough Job.
Raymond Hatton, who designed and made his own costumes for the island scenes in "Male and Female," had great difficulty during his tailoring job. He declares he had no idea of the toughness of a goat's skin until he started making a dinner jacket out of the hide. "I now believe that it is absurd to scout the oft-heard assertion that a goat can readily assimilate tin cans and barbed-wire fences as a breakfast food," said Hatton. "Any animal with a hide as tough as that could live and thrive on a diet of scrap iron and cobble stones."

Will Return to Stage.
Blade Ferguson, who has been absent from the dramatic stage for many moons, is to return early in the New Year, under the management of the firm of Charles Frohman, Inc. Her last appearance was under the Klaw & Erlanger management. She has not played in the footlights since she starred in "The Kays" at the Hudson Theater. She has been in the pictures constantly.

Hayakawa's Hobby.
An intimate view of the fruits of one of Sessue Hayakawa's hobbies will be given in "The Illustrious Prince," in which the Japanese star will appear next week at Miller's Theater.

SCINTILLATING :: IN :: COMEDY.

new star will appear next week at Miller's Theater. Hayakawa has a penchant for collecting curios and relics, especially of the oriental variety, and many rare specimens adorn the apartments of Prince Matsuo, the Japanese nobleman of the play. Very unusual is the Buddha statue, said to be over 1500 years old, which was brought from the Orient by F. S. One, who is a close friend and admirer of Mr. Hayakawa.

Director's Home.
Charles Maigne, who is to direct the film version of "The Fighting Chance," from the Robert W. Chambers story, arrived here a few days ago and is making preparations for the production, which is to have as its stars Conrad Nagel and Anna Q. Nilsson.

New Hip Program.
Frank Keenan is the featured star of "The False Code," which is the film attraction at the Hippodrome. The story concerns a man wronged by his business associates, who bears the brunt of their crime and then takes the law in his own hands. The vaudeville bill includes the wrestling bear, Little Jim; the musical trio and songs and patter; Jack Pals in "Just Polking Along," the Musical Shrieks, Allen and Jones, black-face comedians, and the Aerial Eddies in thrilling feats.

Bronson Philharmonic Soloist.
Ilya Bronson, the first "collet" of the Philharmonic, is to soloist at the concert given by this organization tomorrow afternoon, at Trinity Auditorium. He will play the solo concerto. This is Bronson's first appearance in Los Angeles as soloist. A Russian by birth, he is a graduate of the Imperial Conservatory, where he was winner of the famous Reinecke prize given annually to the most talented pupil.

The symphony on the programme will be Beethoven's First, the Pathe Suite, by Roger-Ducasse, and the Rhenish Overture (Wagner) will also be played.

Zoellner Concert.
Essentially modern was the programme presented by the Zoellner Quartette Tuesday evening at the Elbel Club House. The musicians played a quartette in E Flat Major by Dittersdorf, the Quartette Opus 3, by Gliere and an Andante by Debussy, a Scherzo by the members of the quartette reveal themselves as sensitive to the spirit of the works performed, and displayed a fine command of the technical difficulties. The concert met with generous appreciation of the audience. The Zoellners will make no further appearances in this series until the spring, as they are going on tour.

Midgets Proving Popular.
Ringer's Midgets are making a hit with their unique show at Pantages this week. The elephant act is very entertaining and the acrobatic numbers are clever.

In addition to the Midgets there is a good vaudeville show with the Cycling Brunettes, Al Prince and

FLASHES.

KOSLOFF SIGNS.

PARAMOUNT-LASKY MAKES HIM PERMANENT MEMBER.

By Grace Kingsley.
Theodore Kosloff, the famous dancer, has affixed his name to a long-term contract, by the terms of which he will appear in and assist in the production work of future Paramount-Artcraft pictures, according to announcement made yesterday by Cecil De Mille, director general of the Paramount-Lasky forces.

Mr. Kosloff signed up for but two pictures, a few months ago, but under the terms of his present contract he will become a permanent member of the De Mille staff, whenever possible playing roles suited to his personality. In addition to this work, Kosloff will assist Mr. De Mille in a technical capacity.

Mary Pickford Vacations.
Mary Pickford is taking a vacation, following the completion of "Pollyanna." That she is busy shopping for Christmas presents for her friends and preparing them for mailing with her own fair hands, if this can be considered a vacation.

Katherine MacDonald Flits.
Monterey will be the setting used for the making of the picture of Katherine MacDonald's next picture, "The Guests of Hercules." Ly C. M. and A. M. Williamson, the company left Sunday for the historic little city of the north.

Dwan has Peter B. Kyne.
Allen Dwan has purchased the picture rights to Peter B. Kyne's "Blind Husbands," which is to be the Kyne himself will assist in the production, writing subtitles and otherwise making himself useful.

Associated Directors' Plans.
It appears now practically certain that the Associated Directors, com-

posed of six of the best-known directors in the business, viz.: Allen Dwan, Thomas H. Ince, George Loane Tucker, Mack Bennett, Marshall Neilan and Maurice Tourneur, will sign to release through the "First National Exhibitors' Circuit." This is in accordance with the statement of one of the Big Six themselves, which was made yesterday.

According to the statement of this member of the Associated Directors, the deal will go through in the course of a day or two, if at all, and will be for a year only.

Simultaneously with the announcement that Dorothy Dalton has just signed a long-term exclusive contract with Famous Players-Lasky Corporation, to star in Paramount-Artcraft pictures, Jesse L. Lasky announces that her first production under the new arrangement will be Sir James M. Barry's play, "Half an Hour." The remainder of Miss Dalton's contract with Thomas H. Ince has been taken over by Famous Players-Lasky and the new contract is operative immediately.

Jack Pickford Leaves.
Jack Pickford, Goldwyn star, left last night for New York to spend Christmas with his wife, Olive Thomas.

"That Something" Unique.
A preview of the first production made by the Hermann Film Corporation, viz.: "That Something," adapted from the story of W. W. Woodbridge, dedicated to the Rotary Club, was given a few days ago, with the theme a sort of new thought idea, demonstrating that faith in the divine self, the capacity to work hard and the willingness to help others are the keys to success. The story is human and convincing, with the acting exceedingly well done by Marjorie Wilson, Charles Meredith, Carl Ullman, Nigel de Brulier and others. The plays shows admirable direction by E. P. Hermann, in fact, proves, though this is his first picture following thirty years in theatrical life, that he has "that something" necessary to the making of a successful director.

The Last Urgent Call CONTINENTAL OIL & REFINING CO.

Will be formally withdrawn from further public offering. The rapid strides of the past four months have proclaimed Continental Oil & Refining Company, a colossal success. From an oil venture to a substantial, producing, dividend paying oil company, Continental now takes its place in the ranks of the few large petroleum enterprises of this country. Our clients have much occasion to rejoice in their fortunate holdings in this company. Their profits will manifestly be large and beyond what we considered a conservative prediction.

FOR YOUR INFORMATION

We quote the telegram received by our New York correspondents which is self-explanatory.

Wm. Cheadle Borchers,
605-10 Trust & Savings Building,
Los Angeles, California.

We beg to advise several large Continental Stockholders have agreed to supply a large sum of money to Continental Oil & Refining Company to carry on extensive drilling operations, development and property acquisition campaigns. The operations contemplated shall equal in our opinion those carried on by the largest operating companies in this country. IN VIEW OF THIS FACT CONTINENTAL SHARES WILL BE NO LONGER AVAILABLE for public distribution. We have arranged for the acceptance for all orders you may have already booked and may accept before the close of business, December 24th, and wired to us by that time. WE URGE YOU TO PLACE AN ORDER FOR A BLOCK OF STOCK FOR YOUR PERSONAL INVESTMENT, since with information we have at hand and future plans, Continental shares in our opinion will possess unusual possibilities. We understand from well-informed circles that stock interest with brokers throughout the United States on Continental issue should total not less than four hundred thousand shares. Under no circumstances will Continental shares be available after December 24th. Take this as final notice and be guided accordingly. The strikes the Company has made in the past four or five months has no doubt come to your attention.

Secure Continental Shares Immediately

We will be unable to make further offerings after the termination of our present allotment. We, therefore, wish to impress upon the buying public the importance and the large profit possibilities in securing this issue before being listed on the Eastern Exchange market. There will be no offer made at advanced prices. We shall always be pleased to keep our clients in touch with market condition surrounding this stock and advise as to its attractiveness from time to time.

We take this opportunity to congratulate our many friends and clients who participated in our past offerings and especially the Continental Oil & Refining Company shares. With the closing of this issue for the public another substantial investment offering has been brought to a final and successful conclusion.

Dividends 24% annually on 2% monthly basis. Price \$250 per share.

Orders received are subject to prior sale or withdrawal.

Woman Loses Her Children
on Stories Told of Parties.

Mrs. Edith M. Frakes, who was
alleged to have had a gay time at
her home during the absence of
her husband, Matthew F. Frakes, in
France, was deprived of her two
children yesterday when Judge
Crall granted Mr. Frakes a divorce
and ordered the children placed in
the care of his mother, Mrs. Isaac
Frakes of Pasadena.

Pictures showing Mrs. Frakes in
a bathing-suit were introduced in evi-
dence and developed opposing sto-

ries from husband and wife. He
said he saw one of the pictures in
the hands of a man who came to
Carroll Lane camp in San Diego,
where Mr. Frakes was working.
This man, he said, had a number
of pictures of women.

Mrs. Frakes testified the pictures
were taken with the consent of her
husband. Only three copies of the
picture were made, she stated. She
denied she "peddled" the pictures.
A woman who took care of the
children in the absence of Mrs.
Frakes testified that after Mrs.
Frakes entertained at her home
cigarette butts were left for her to
clean up in the morning.

Attorney Rupert Turnbull, who
represented Mr. Frakes, a Pasadena
city fireman, was induced to have
Isaac Frakes in court this morning,
where he will be instructed not to
criticize his daughter-in-law in the
presence of her children at his
home.

UNUSUAL POSITION TAKEN BY JUDGE.

RAYN CONVICTED ATTORNEY
MIGHT HAVE BEEN FOUND
NOT GUILTY.

Although Willis O. Tyler, local
necro attorney, was fined \$150 yester-
day by Judge Crall for driving
an automobile while intoxicated,
the court took the unusual position
that he might just as well have been
found not guilty as guilty. He was
recently convicted by a jury under
the new State law making such driv-
ing a felony. However, the fine im-
posed yesterday makes the conviction
a misdemeanor instead of a
felony. Mr. Tyler paid it.

In imposing the fine the court
said: "I have a great deal of re-
spect for Mr. Tyler. The defendant
has appeared in this court many
times and has defended his clients
with great ability. There was no
reason why a verdict of not guilty
could not have been returned by the
jury instead of that of guilty, but
that is not in my province. That is
for the jury to decide. In this court
Mr. Tyler has always conducted
himself as a gentleman."

H. L. Carnahan Says He's to Man-
age Johnson Campaign.

H. L. Carnahan, ex-commissioner
of corporations and now of this city
announced last night that he is to
manage Senator Hiram Johnson's
California campaign for President.
He expects Senator Johnson to ar-
rive in San Francisco tonight and
says a conference of Johnson lead-
ers has been called for Saturday
night in the northern city. It will
be attended by former Senator Pitt,
George I. Cochran, Leo Youngworth,
Meyer Lissner, Frank Dougherty
and Mr. Carnahan.

Electricity Has Revised the Calendar for American Women.

There is no longer "but twenty-four hours in the day" for
American womanhood.

The tasks that once consumed the greater portion of an
Housewife's day are done in her spare moments now, leaving the rest
her time free for greater activities.

Today she cooks with electricity, washes with it, sews with it,
with it, presses with it and makes of work a pleasure by its wizardry.

The many appliances with which modern genius has "harnessed the
elements" for the convenience of women may be had at Hamburger's
Fourth Floor—in profusion.

Marriages to Stop
February 25, Says
State Department.

San Francisco Consul-General
Step is Taken with
Friendly Intent.

WASHINGTON, Dec. 18.—
The State Department has been
advised of the intention of the
Japanese government to stop
passports to "picture
brides" when this can be done
without injustice to those Jap-
anese who have progressed so
far in their arrangements to
marry as to warrant considera-

tion. It is not intended to make a
general announcement, but it has
been planned to allow a period
of two months before the
restriction is imposed.

FRANCISCO, Dec. 18.—On
February 25, the Japa-
nese government will accept no ap-
plications for passports for women
married to Japanese men in
continental United States
exchange of photo-
graphs was announced last
night by the Japanese consul-
general here.

His advice received by Mr.
Carnahan, the Japanese consul-
general here, he said, was to
stop the issue of passports to
picture brides. He said he had
been somewhat erroneously
informed that the Japanese con-
sul in San Francisco had been
asked to stop the issue of pas-
ports to picture brides. He said
that means there is only an
interval of a month or so in which
applications can be accepted.
